BIRD PRICE GUIDE

Eighth Edition - 2016

Prices listed are per pair price.

The Bird Price Guide has been prepared by The United Bird Societies of S. A. Inc.

It is a **guide** for the information of bird keepers in our affiliated clubs and attempts to provide an indicative median value that may be attached to birds within S.A.

It was prepared from information submitted by some of our Affiliated Clubs and by individual members of Clubs. In the guide, there are birds for which no information was received to facilitate assessments of reasoned median prices. In these cases "n/a" is shown rather than providing a guessed figure. In some cases, the prices were taken from a very small sample base and therefore may be distorted.

It is recognised that people selling birds are entitled to, and will, set their own values for their birds - taking into account the many factors that influence bird prices. Those factors include supply, demand, condition of the birds, breeding pairs, DNA tested birds, Show Bench quality, mutation values, age, etc.

As bird prices are subject to so many factors, The United Bird Societies of South Australia Inc can accept no responsibility for variations from the prices indicated in this Guide.

We welcome constructive comments and suggestions that will add to the status of the document and which will assist in the development of a quality guideline document. In particular, we strongly encourage all bird keepers to participate in the next survey and enable this to be a more comprehensive document providing a wider range - and a more authoritative indication - of bird prices for the benefit of South Australian birdkeepers.

AUSTRALIAN PARROTS

Bluebonnet - Naretha	2000
Red-vented	200
Yellow-vented	160
Blue winged - Normal	110
Blue	2000
Bourke's Parrakeet
